

Immobilization (boot)

Booting is the disabling of a vehicle by applying a clamp to a wheel that can only be removed by the Office of Safety and Security.

If the boot is removed by a person or persons other than Safety and Security personnel, a fine of missing or damaged boot and possible arrest may occur.

Unregistered vehicles, vehicles parked in violation of regulation where signs and lot marking prohibit parking, or excessive unpaid tickets will be booted. Vehicles may be booted even if presently located in a legal parking spot.

When a vehicle is booted there will be a \$75 boot fee.
